DECORATIVE DAHLIAS

We have observed during the last two seasons a growing tendency on the part of the public who frequent Horticultural Exhibitions to favor the exhibits of huge decorative varieties. This impressed us so much that we decided to grow all the introductions, and to select therefrom those which pleased us in regard to habit of growth—particularly the way in which the flowers were produced upon the plants —floriferousness and general effectiveness in the garden. In size they cannot be equaled and for decorative purpose they are unexcelled.

This collection includes all the Giant Decorative Dahlias. Some of them attaining the grand dimensions of 8 or 9 inches in diameter. The flowers growing as they do upon long stems are splendid for Decorative purposes and for exhibition, win Prizes wherever shown.
